Injective indicators for:
Inclusive

On 30 November 2020, the Future of Cities and Human Settlements initiative was launched at the United Nations Department of Economic and Social Affairs (United Nations, New York) to mobilize and convene a broad range of stakeholders to foster the implementation of the New Urban Agenda. The goal is to improve the efficiency and effectiveness of implementation work and to support the implementation of national urban policies, plans, and programs. The initiative will enable a high-level space for the exchange of information and experiences among cities and countries, to ensure that lessons and best practices are widely shared and disseminated, and to catalyze new initiatives and partnerships.

The initiative will contribute to the implementation of the New Urban Agenda by providing:

- A platform for stakeholders to share information and experiences on national urban policies, plans, and programs.
- A forum for the exchange of information and experiences among cities and countries.
- A mechanism for catalyzing new initiatives and partnerships.
- A mechanism to ensure that lessons and best practices are widely shared and disseminated.

The initiative will also support the implementation of the New Urban Agenda through:

- The promotion of innovative solutions and the exchange of information and experiences.
- The identification of best practices and their dissemination.
- The coordination of efforts among cities and countries.
- The facilitation of partnerships and initiatives.

The initiative will be led by a high-level official from the United Nations Department of Economic and Social Affairs (United Nations, New York) and will be supported by a team of experts from United Nations agencies and organizations.

The initiative will be implemented over a period of three years, from 2021 to 2023.

The initiative will be open to all stakeholders, including cities, countries, United Nations agencies and organizations, and other international organizations.

The initiative will be supported by a range of resources, including financial resources, technical assistance, and capacity building.

The initiative will be evaluated to ensure that it is achieving its goals and to identify areas for improvement.

The initiative will be reported on annually to the United Nations Department of Economic and Social Affairs (United Nations, New York) and to other stakeholders.

The initiative will be reviewed and adopted by the United Nations Department of Economic and Social Affairs (United Nations, New York) and its partners.

The initiative will be supported by a monitoring and evaluation framework, results-based management, and accountability mechanisms.

The initiative will be extended to 2022 and World Cities Day 2022.

Maryam Jama had been unable to continue her previous work due to her injury sustained in the attack. She was still unable to return to work and was forced to live in her home with her family. The project falls under UN-Habitat’s Participatory Slum Upgrading Programme (PSUP), an initiative of the African Caribbean Pacific Secretariat funded by the European Commission. As a beneficiary of the project, she had received an additional USD 1,000 to support her family’s needs.

The project has been successful in improving the living conditions of people in the affected areas. The project has created 1,140 working days so far in Duhok and this number is expected to increase in the future. The project has also helped to reduce urban poverty in the affected areas.
